

OCTOBER 2017

# POWERFUL PROJECT

# FAIRNESS

AGES 4-7

FIRST & LAST NAME: \_\_\_\_\_

Fairness means: "When everyone has or receives what they deserve or what they need." Fairness does not always mean "the same" or "equal." Sometimes what's fair is NOT equal or the same! Below, determine what is fair or unfair and show how you are fair in your own life. And, of course, remember to show fairness to your friends, family and classmates!

Some of these activities and situations are fair. Some are NOT fair. Put an "F" next to the ones that are fair. Put an N next to the ones that are Not fair.

Your friend cheats in a card game because he really wants to win. \_\_\_\_\_

The younger and smaller children on the team get extra help. \_\_\_\_\_

The person in the wheelchair gets to go into the theater first. \_\_\_\_\_

The child who throws the tantrum gets the most clothes and treats. \_\_\_\_\_

The adults in the family get more food than the children. \_\_\_\_\_
